SUMMARY

Front-end developer based in São Paulo, Brazil. I build websites, landing pages, dashboards and automations with n8n and AI, from layout to deploy. Technical degree in IT (Senac) and a bachelor's in Communication and Journalism: I combine clear interfaces with copy that helps people decide. Open to remote roles and freelance projects.

SKILLS

Front-end: HTML, CSS, JavaScript, React, Astro, Tailwind CSS, Vite, GSAP
Automation and AI: n8n, webhooks, REST APIs, JSON, LLMs and prompting, Telegram bots
Data and deploy: Supabase, MySQL, Git and GitHub, Vercel, Cloudflare
Quality: Jest, Vitest, mobile first, responsive design

EXPERIENCE

Front-end developer and social media

Tattoo studio · São Paulo · current

- Websites and landing pages, including a trilingual (PT/EN/ES) corporate site with booking via WhatsApp.
- Studio Reels and social media; internal dashboards and n8n automations (WhatsApp, Instagram DMs).
- Company IT and network support.

Collections assistant

GRB Services do Brasil · since Nov 2022

- Contract review, negotiation of overdue items and team meetings.

PROJECTS

Central Ygor · **Astro, React, Tailwind, Supabase, n8n, Vercel**
Personal management app live 24/7, with PIN and a Telegram assistant (text and audio) connected to n8n and AI automations.

Campaign Dashboard · **React 19, Vite, Tailwind 4, Node.js**
Internal tool for an online course platform: Meta Ads, leads, sales and page health, with role-based login and automated tests.

Original SP Tattoo · **Vite, Tailwind, JavaScript**
Trilingual multi-page website for a tattoo studio, focused on conversion via WhatsApp.

Conexus · n8n Automation · **n8n, webhooks, REST, JSON, LLMs**
Workflows with error handling and retries; AI-based freelance job classifier.

RogyFacul · **Astro 7 SSR, Tailwind 4, Supabase, Vitest**
Study library with progress and XP, mobile first, security through RLS.

Blog with API publishing · **Next.js, Tailwind, MDX, GitHub API**
Endpoint that receives markdown, commits to the repo and triggers the deploy.
